Notes: I called Dick at 3:50pm and left a message with his secretary to call me back. Dick called back at 4:00pm. I explained that I had a few follow-up questions for him regarding Sharon Hill's response. Dick indicated that he also represents Prospect Park and will be submitting a response on their behalf soon. Dick stated that they had a great deal of difficulty finding any information for this request. I asked Dick if he or Mr. Scott spoke to any of the former employees identified before answering the request. Dick indicated that they did not. He has since spoken to Robert Alexander to alert him to the fact that EPA might contact him. I asked Dick if any waste from the Borough that was taken to the incinerator was from commercial or industrial concerns. He indicated that it was not; the waste was strictly municipal. Robert Alexander confirmed that in his conversation with Dick. Dick indicated that they reviewed what documents were available - which consisted of minutes and the like. There was not very much information from that time period. Dick asked what was happening at the Site, and I explained that we are getting ready to start the Remedial Investigation and are trying to identify parties that sent waste to the Site. Dick wished me luck and we ended the call.
